Your words not mine....

Absolutely loved this tour, gutted I had to pull out - all day yesterday I was sitting on the sofa thinking "shall I do, shall I not?" - hate not finishing all the stages but onwards to Britannia with a fully functioned again.

Thank you to everyone who has taken part in all the chat streams, the races - my PEP and other FHRC category riders on course where we had great banter And of course Rich - you are the best but gosh you like to make us suffer

My 1st time trying FRR tour and it was pretty much my 1st time racing in Zwift altogether. I loved it! Great fun and great challenge. TY

Thanks for another great tour and for all your hard work Richard and Hayley! I'm always impressed how quickly issues are fixed and how much feedback you manage to take on board. I'm still recovering from the horsemen but looking forward to the next tour

I'll look forward to participating in the next tour!

Thanks for another brilliant edition the best (and most brutal) thing on zwift

First time with FRR and I can say that I have never been -70 in form. In the red is the only way forward!!

Thank you all from FRR

First FRR experience. Amazing. I'm hooked. See you again soon. Thank you, Richard and team. Cheers from Northern Michigan.

This was my first time in this competition. Excellent experience. Truly very challenging and demanding. It was a pleasure to compete with the GHT riders. See you tomorrow for the farewell. Congratulations to the organizers.

Truly incredible amounts of work go into creating something like this. And thanks to the wider FRR community. It has been a pleasure as always

I think our Team could sell salt now

Tour has been amazing, structure is superb, the open comms with race control perfect. Will definitely be coming back for more ... thanks so much, chucked a donation in the tin - now my favourite race series on zwift

Thanks for another great tour! Really enjoyed yesterday's horsemen

The pain and suffering you all put us through is unmatched on Zwift. Awesome to see so many more people joining in on this madness

Today will be my first fully completed tour after a few attempts. I wasn't really competitive in my grade but I finished and that was my personal challenge. Tough, tough series and I've definitely regained a lot of the fitness I lost on my months holiday.

Simply incredible experience cannot wait for next one

Magnificent, challenging, supportive, epic, painful, delightful and that's just the discord chat! Thank you so very, very much for all your hard work. You have created a challenging and engaging race series, that appeals to all level of riders. So many like minded folks, who just like riding their bikes for their physical and mental health and well being. Although it's not over just yet, it's been wonderful. Big, big thank you

Thanks for a wonderfully organized series!
